

JIRES TSHEBWE

ASPIRING FULL STACK WEB DEVELOPER

South Africa | +27 83 7671 405 | tshebwej7@gmail.com

LinkedIn: [linkedin.com/in/tshebwej7](https://www.linkedin.com/in/tshebwej7) | GitHub: github.com/tshebwej7 | Portfolio: tshebwej7.github.io/portfolio-website

PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer progressing through a six-module Full Stack Web Development journey with freeCodeCamp. Certified in Responsive Web Design through freeCodeCamp and certified in Generative AI for Software Development through WeThinkCode_. Completed the freeCodeCamp JavaScript curriculum and built multiple practical web projects using HTML5, CSS3, JavaScript, responsive design, and Tailwind CSS. Experienced with Git and GitHub workflows and live web deployment, including a complete corporate website project developed from scratch. Seeking internship, junior, graduate, or entry-level software development opportunities while continuing to develop toward full-stack proficiency.

TECHNICAL SKILLS

Web Development | HTML5, CSS3, JavaScript, Responsive Web Design

CSS & UI | Flexbox, CSS Grid, Tailwind CSS, UI/UX Principles

Development Tools | Git, GitHub, Visual Studio Code, Browser Developer Tools

Development Practices | Responsive Design, Accessibility Concepts, SEO-Friendly Structure, Reusable Components, Design-System Thinking, Live Deployment

AI for Software Development | Generative AI-Assisted Coding, Codebase Comprehension, Documentation, Debugging, Testing, Refactoring, and Development Workflows

DEVELOPMENT EXPERIENCE

Student Software Developer — Independent / Self-Directed | 2024 – Present | South Africa

- Develop practical software development skills through structured coursework, hands-on projects, and continuous portfolio development.
- Completed the freeCodeCamp Responsive Web Design curriculum and earned the Responsive Web Design Certification.
- Completed the freeCodeCamp JavaScript curriculum and apply JavaScript to interactive web projects.
- Build responsive and interactive websites and web applications using HTML5, CSS3, JavaScript, Flexbox, CSS Grid, and Tailwind CSS.
- Use Git and GitHub to version, publish, maintain, and document project source code.
- Deploy web projects as live websites and connect live demonstrations with their source repositories.
- Developed Elsha Trading Solution, a complete corporate website for an electrical contracting company, using HTML5, Tailwind CSS, and JavaScript with responsive design, reusable components, UI/UX, accessibility, SEO-friendly structure, maintainability, and a consistent design system.
- Apply Generative AI within software development workflows, supported by formal certification in Generative AI for Software Development through WeThinkCode_.
- Continue progressing through the remaining modules of a structured six-module Full Stack Web Development curriculum.

EDUCATION & PROFESSIONAL DEVELOPMENT

Full Stack Web Development — Six-Module Curriculum | freeCodeCamp | 2024 – Present

Structured Full Stack Web Development journey combining curriculum-based learning and practical projects. Completed Responsive Web Design and JavaScript; continuing through the remaining modules.

Generative AI for Software Development | WeThinkCode_ | Certified

Completed the Generative AI for Software Development program, developing practical understanding of applying Generative AI throughout software development workflows, including code assistance, codebase comprehension, documentation, debugging, testing, refactoring, and learning technologies.

CERTIFICATIONS

Generative AI for Software Development | WeThinkCode_

Professional certification in the practical application of Generative AI within software development workflows.

Responsive Web Design Certification | freeCodeCamp

Certification demonstrating foundational and practical knowledge of HTML, CSS, responsive layouts, Flexbox, accessibility concepts, and responsive web development.

SELECTED PROJECTS

The Fade Room — Barber Shop Website

The Fade Room is a professional, responsive barber shop website created as part of the Talent Forge Junior Full-Stack Developer Practical Assessment. The project presents a fictional premium barber shop, with a focus on professional UI design, responsive user experience, appointment booking, dynamic appointment details, and calendar integration.

Elsha Trading Solution — Corporate Website

Complete corporate website developed from scratch for an electrical contracting company. Built with HTML5, Tailwind CSS, and JavaScript. Features a responsive design system, reusable components, structured pages, responsive navigation, accessibility-focused implementation, SEO-friendly structure, and production-focused development. Deployed as a live website.

Live Demo: not public | *GitHub:* not public

Book Inventory App

JavaScript-based web application demonstrating interactive application logic and dynamic web behavior. Built with HTML, CSS, and JavaScript.

Live Demo: tshebwej7.github.io/book-inventory-app | *GitHub:* github.com/tshebwej7/book-inventory-app

SmartWatch Pro — Responsive Product Landing Page

Responsive product landing page developed with HTML5 and CSS3, focusing on structured layouts, responsive behavior, visual hierarchy, and user-focused interface design.

Live Demo: tshebwej7.github.io/SmartWatch-Pro-Landing-Page | *GitHub:* github.com/tshebwej7/SmartWatch-Pro-Landing-Page

Python Technical Documentation

Responsive technical documentation website with structured navigation, organized content sections, readable typography, and responsive layout implementation.

Live Demo: tshebwej7.github.io/python-technical-documentation | *GitHub:* github.com/tshebwej7/python-technical-documentation

Developer Survey Form

Responsive survey form interface demonstrating structured HTML forms, user input elements, responsive layouts, and usability-focused design.
